

*Creating 3D nail designs
has never been faster and easier!*

*Choose from
25 vibrant colors!*

3D CHRISTRIO
gel

What makes our gel different?

Our **innovative gel** is formulated to create **3D** & raised designs with absolutely no time restraint. Our flexible, gum paste-like gel allows you to easily form your designs like a nail pro! Your design will only set once cured under an LED or UV lamp. If you're not content with your design, simply wipe the design off the nail and start over! It's as simple as that! There's **no mess-ups** with **Christrio's 3D Gel!**

*The revolutionary 3D Gel that
every nail artist needs!*

Yummm!

*Now you can create
the sweetest 3D nail designs!*

3D CHRISTRIO
gel

Create stunning 3D nail designs with ease!
Available in **25** vibrant colors!

CHRISTRIO®

IMPROVED FORMULA IS SUPER EASY TO USE!
CREATE FLOWERS, YUMMY CANDY, DONUTS,
ANIMALS, CHARACTERS, AND SO MUCH MORE!

STEP 1:

Prep nails as desired. Scoop out a small amount of 3D Gel using the dot tool side on your 3D brush.

STEP 2:

Using the 3D Gel Brush, begin to form the 3D Gel into the shape you desire. Here we are going to create a cute simple bow. **TIP:** Use a small amount of Basic One Wiping Solution with our 3D Gel to allow more fluidity while designing. This will help you as you continue to form the desired design.

STEP 3:

Here we began to add details to our bow. We then cured our design and proceeded. **TIP:** Our 3D Gel will not set until you cure your design. You have plenty of time to work with the 3D Gel to design whatever you would like! You can add more details to your nails. We added ribbon details to our cute bow.

STEP 5:

Once you are finished with your design, go ahead and cure your design under an LED/UV lamp. **Note:** You can add as many layers as you would like, just be sure to cure your first layer before creating another layer.

STEP 6:

Wipe final design with Basic One Wiping Solution and you are done! You can add a topcoat if you'd like, but it is not necessary.

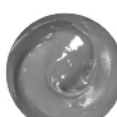

NOTE: Cure time 30 sec - 1 min. Flash cure to set design 10 sec.

*Get creative with
Christrio's 3D Gel!*

Reasons you'll love our 3D Gel...

- Easy to use!*
- No time restraint!*
- No mess-ups!*
