CHOOSE FROM 9 PIGMENTED COLORS
TO CREATE ENDLESS NAIL ART DESIGNS!

NAIL INK

BOLD • EXPRESSIVE • FUN

Step 1: Thoroughly prep nails. Choose your favorite gel color for your base and cure. We used Diamond Gloss #75.

Step 2: Begin by applying a small amount of Nail Ink in Hot Pink onto the nail, starting from the top left to the center of the nail. Make sure not to add an excess amount of Nail Ink as the ink will naturally spread.

Step 3: To create a gradient smoke effect, apply another small amount of Nail Ink in Orange starting from the center of the nail going down towards the bottom right.

Step 4: Sparingly tap a few drops of Nail Ink in Clear on top of the Hot Pink and Orange colors you've previously placed on the nail. This will dilute the Nail Ink allowing the Nail Ink to spread, creating a smoke effect.

Step 5: Repeat Steps 2 & 3 by applying a few more drops of the Nail Ink in Hot Pink and Orange.

Step 6: Once again, sparingly tap a few drops of the Nail Ink in Clear onto the nail to allow the ink to spread.

Step 7-8: Once finished, apply your favorite top gel. We recommend using our PolyShine No Cleanse Top Gel for a beautiful shiny finish!
